IXL for SAT and ACT Prep

Students at Porter-Gaud can use IXL for SAT and ACT test prep. If you are interested in using IXL for test prep, please do the following:

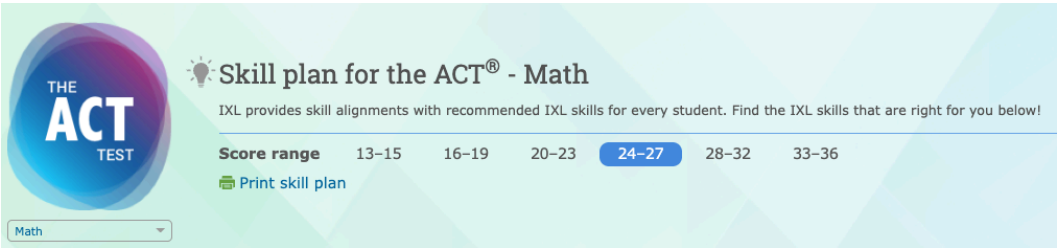

- First, check and see if your student is currently using IXL for math class. If so, then you can follow the steps below and start with the test prep.
- If your child is not currently using IXL in a math class then send an email to helpdesk@portergaud.edu and request an account. Please include the name and grade of the student.

How to use IXL:

Go to Learning and choose Test Prep. Then identify the test you would like to use.

Click on the test and then choose a subject area. Choose the score range you would like to obtain.

IXL will give you examples, videos and questions that will help prepare for the test. A personalized skill plan can be generated. If you have any questions or need assistance, please email helpdesk@portergaud.edu.
